

ONGC Petro additions Limited

Health, Safety and Environment Policy

OPaL is committed to achieve leadership role in Health, Safety and Environment management through continual improvement by innovative and sustainable endeavors with all levels of resources support.

OPaL believes that protection of environment and ecology, the safety and occupational health of employees and stake holders will always be core value along with the organizational mission and vision.

We, at OPaL pledge to comply all measures for awareness and prevention of Health, Safety and Environment related incidents through direct involvement of our all levels of personnel, stake holders.

OPaL has highest priorities and is committed to achieve these objectives by:

- Design all the plants to highest standard of Health, Safety and Environment.
- Set measurable objectives for Health, Safety and Environment
- Integrate Health, Safety and Environment consideration in business planning and decision making
- Create effective Health, Safety and Environment procedures and ensure compliance to all procedures
- Provide safe and healthy working environment and train all employees and contractors on safe work practices.
- Comply with applicable Health, Safety and Environmental legislation and statutory, regulatory and other requirements.
- Use techniques and studies of process safety and management, to minimize Health, Safety and Environment related incidents building towards a continual improvement culture.
- Development of green belts and plantation of trees in harmony with nature.
- Emphasize to every employee about his responsibility for healthy, safe, environment friendly, productive and aesthetically satisfying environment.
- Continually review objectives with respect to Health, Safety and Environment for improvement.
