

OPaL made LIMS Go-Live

LIMS (Laboratory Information Management System) is supplied, designed and customised by **LABVANTAGE, USA** and was formally made GO-Live by Shri Manoj Srivastava-MD & President, OPaL on 1st March 2019 in Central Laboratory.

A Laboratory Information Management System (**LIMS**) is a software that allows Laboratory to effectively manage samples and associated data to improve lab efficiency. By using the **LIMS**, Laboratory can automate workflows and easier to store data from sequencing run, track and assess cycle time across test results.

Moreover, from 11th February auto mailing of LIMS generated reports are being shared with all the employees of the plant along with conventional excel reports.
