

## OPaL Presents a Case Study at Prestigious Technical Steering Committee (TSC)

OPaL was one of the proud participants at the prestigious Technical Steering Committee (TSC) meeting on Wednesday, 4<sup>th</sup> October 2018 in Mumbai. At the meeting, OPaL delegation presented a Process Safety Case Study before the PSM Expert committee of CCPS and other process safety fraternities.

The PSM case study presented by OPaL received overwhelming response and appreciation from the technical committee. OPaL's participation during various technical deliberations on process safety during the meeting also attracted a high level of appreciation. OPaL was represented by a delegation comprising of Shri Rajeev Vijay, Head-U&O, Somnath Sarkar, Sr. Manager-HSE, Nitin Bokde, Sr. Manager-U&O and Mayank Joshi, Manager-CTS.

The Technical Steering Committee meeting was well-attended by many Oil & Gas and Petrochemical majors of India from both Public and Private sectors.

CCPS (Center for Chemical Process Safety), a division of AIChE, is a highly distinguished and prestigious global forum of process safety professionals. Many reputed Corporates and Multinationals across the globe participate and share their expertise and innovations in the field of process safety at various conferences, meetings organized by CCPS across the globe.
